Salt Lake City, Utah 84054-0700

Subject: Result of Meeting to Discuss Division Directive, Lakeview Rock Products, Beck Street Quarry, M/035/0020, Salt Lake County, Utah

Dear Mr. Hughes:

Subsequent to our meeting of December 4, the Division requests that you apply the following conditions to your next production blast:

1. Give the Division 24 hours notice of the date and time of the blast and accommodate the presence of Division inspectors at the blast.
2. Utilize a Blasting expert for blast design, the review and approval of the blast plan and the review and approval of the seismograph record.
3. Provide to the Division the Approved Blast plan, signed by the Blasting expert and the seismographic record, signed by the Blasting expert of ground vibration monitored at the dwellings of Messrs. John Hall and Paul Evans.

Both the Blast plan and the seismograph record are to meet state and national standards as is defined by ISEE (International Society of Explosives Engineers) and OSM (Office of Surface mining)

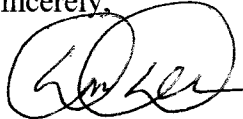

We would appreciate your cooperation in analyzing and applying the results of the monitoring as you implement industry standards in your future blasting plans.
